Web: React, Next.js, TypeScript, JavaScript, Tailwind CSS.
Backend: Firebase, Firestore, Firebase Auth, Cloud Functions, Supabase, MySQL, Node.js.
Integrations: Gemini, ML Kit OCR, Translation APIs, Google Maps, Geofencing.
Tools: Git, GitHub, Vercel.
Design: Canva.

EDUCATION

National University Baliwag - Bachelor of Science in Information Technology
2023 – Present

EXPERIENCE

Freelance Web Developer Gen Zone Works (Melbourne cleaning business client).

- Built and deployed a client-facing cleaning business website with an instant itemized quote estimator, PDF quotes, and geolocation.
- Developed login-protected admin dashboard for quote requests and records.
- Implemented secure Firebase authentication, Cloud Firestore and security rules.

TECHNICAL STRENGTHS

- Responsive web and cross-platform mobile development.
- Firebase backend and role-based access controls.
- AI integrations, real-time data and mapping solutions.
- Performance optimization, deployment and maintainable code.

PROJECTS

FIELDTRIP360

- School field-trip management app with trip planning, attendance, location tracking, announcements, chat, and student, parent, teacher, and administrator interfaces.

LANGUAGE BRIDGE

- Local dialect language translation and learning app with text, voice, live-camera translation, history, favorites, lessons, and quizzes.

ISKOLARSPH

- Scholarship platform for browsing opportunities, submitting applications, and managing donor listings and applicants.

GEN ZONE WORKS

- Cleaning-business website with an instant quotation calculator, downloadable PDF quotes, customer requests, and an administrator dashboard.

NU-EDIS

- NU-EDIS is a web-based system designed exclusively for NU Baliwag students and clinic personnel. It enables students to submit SOS reports with their location, helping clinic staff coordinate emergency responses through a dedicated administrative dashboard. The system also centralizes students' medical records and clinic visit records to support organized recordkeeping and efficient access to information.
